

**RAYMOND TAKASHI SWENSON**  
**Senior Counsel, CH2M Hill Plateau Remediation Company**  
**Hanford Site, Richland, Washington**

Mr. Swenson has worked for CH2M Hill and Bechtel at the Hanford and Idaho National Laboratory Sites since 1997. Ray was Of Counsel with Ballard Spahr LLC in Salt Lake City, representing Superfund site owners and cities negotiating the transfer of closing military bases in California, Utah and New York.

Lt. Colonel Swenson served 20 years in the Air Force, including as Chief of Environmental Law for Strategic Air Command, and as Regional Counsel for the Western U.S. based in San Francisco. He negotiated a dozen CERCLA Federal Facility Agreements with EPA and several states. He has written articles on NEPA, CERCLA at Federal facilities, base closure environmental issues, 19th Century alternative dispute resolution, and pollution of outer space.

Ray earned his JD at the University of Utah and an LLM in environmental law from George Washington University. He has been adjunct faculty for the Air Force JAG School, UC Berkeley, St. Mary's College of California, University of Maryland, Embry-Riddle Aeronautical University, Utah Valley University, and University of Idaho. He has taught at over a hundred CLE courses throughout California, Washington, DC, and a dozen other states. He is admitted in Utah, California and Washington State.
