DOE and NRC to Hold Public Meeting on SRS F Tank Farm Waste Determination Draft Basis Document

Aiken, SC – The U.S. Department of Energy (DOE) will hold a public meeting with the Nuclear Regulatory Commission (NRC) on the development of the Section 3116 Draft Basis Document for F Tank Farm at the Savannah River Site on July 13 and 14, 2010.

The meeting is to help DOE in the identification of issues with the reasonability of the approach to demonstrate compliance with National Defense Authorization Act Section 3116(a) criteria, thereby allowing for more informed and efficient consultation with the NRC and a more informed draft for public comment.

The seven documents to be review during the meeting are available at:

http://sro.srs.gov/f_htankfarmsdocuments.htm.

Where: City of Aiken Municipal Conference Center,
214 Park Avenue SW, Aiken, South Carolina
(The Alley side of the building)

When: Tuesday, July 13th from 8:30 am till 4:30 pm, and
Wednesday, July 14th from 8:30 am till 4:30 pm

Participation through internet e-meeting will be available at:

<https://www.livemeeting.com/cc/srsemeetings/join?id=CPTT23&role=attend>.
